	nursing, social work, medicine, and related disciplines. Although preference is given to manuscripts presenting the findings of original research, review and methodological pieces will also be considered.	
<p><i>Journal of Aging and Physical Activity</i> http://journals.humankinetics.com/japa</p>	JAPA is the official journal of the International Coalition for Aging and Physical Activity. It is a multidisciplinary journal examining the dynamic relationship between physical activity and the aging process	Jennifer L. Etnier University of North Carolina at Greensboro JLEtnier@uncg.edu
<p><i>Journal of Aging and Social Policy</i> www.informaworld.com/smpp/title~content=t792303967~db=all</p>	The Journal of Aging & Social Policy presents insightful contributions from an international and interdisciplinary panel of policy analysts, researchers, and scholars. The journal examines and analyzes policymaking and the political processes that affect the development and implementation of programs for the elderly from a global perspective, highlighting not only the United States but also Europe, the Middle East, Australia, Latin America, Asia, and the Asia-Pacific rim. Issues regularly addressed in the journal include: long-term care, home and community-based care, nursing home care, assisted living; long-term care financing, financial security, employment and training, public and private pension coverage; housing; transportation; health care access and financing; retirement. The Journal of Aging & Social Policy also reviews the processes for adopting policies at the state and federal levels, examining the interplay of political and economic forces, legal and regulatory constraints, the pressure of special interests, and the influence of constituencies.
